South Texas Project  
Unit 2  
Docket No. STN 50-499  
Withdrawal of Proposed One-time Revision to the Technical Specifications  
Regarding Standby Diesel Generator 22 Mode Change Limitations

Reference: Letter from T. J. Jordan to NRC Document Control Desk dated March 4, 2004,  
"Proposed One-time Revision to the Technical Specifications Regarding Standby  
Diesel Generator 22 Mode Change Limitations" (NOC-AE-04001685).  
[TAC M2278]

STP Nuclear Operating Company (STPNOC) hereby withdraws the referenced proposed amendment to South Texas Project Unit 2 Operating License NPF-80. The proposed amendment would have allowed STP Unit 2 to change modes with Standby Diesel Generator (SDG) 22 inoperable.

STPNOC returned SDG 22 to service prior to restarting Unit 2 from its Spring 2004 refueling outage and the proposed amendment is not required.

Please contact me at (361) 972-7136 if you have any questions regarding this matter.

  
Scott M. Head  
Manager, Licensing
