Dear Mr. Nanney:

We have reviewed the final revisions to the Tennessee "*State Regulations for Protection Against Radiation*", received by our office on April 6, 2004. In addition, we reviewed your responses to our letters, dated February 1, 2002 and March 25, 2004, which contained our comments on your proposed version of those rules. We also reviewed the submitted rule sections in response to Tennessee's request for Nuclear Regulatory Commission (NRC) evaluation of the incorporation of the Radiological Criteria for License Termination amendment. These regulations were reviewed by comparison to the equivalent (NRC) regulations in 10 CFR Parts 20, 30, 34, 40, 70 and 71 and the requirements of the three amendments identified in the enclosed State's Regulation Status Data Sheet (SRS). We discussed our review of the regulations with Debra Shults on May 6, 2004.

As a result of our review, we have one comment. Please provide an amended, final version of your rules showing the location of any changes made, by the State, in response to our comment. If Tennessee believes that this comment is in error, the State should identify the section of their regulations that meets the designated compatibility category. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that if these regulations are adopted, incorporating our comments and without significant change, they would meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Tennessee regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the STP website: <http://www.hrsd.ornl.gov/nrc/rulemaking.htm>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please contact me, or Dr. Stephen Salomon of my staff at (301) 415-2368 or SNS@NRC.GOV.

Sincerely,
