

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

OCT 28 1991

NOTE FOR: Robert M. Bernero, Director
Office of Nuclear Material Safety
and Safeguards

FROM: Daniel J. Fehringer
Hydrology and Systems Performance Branch
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards

SUBJECT: TRANSMITTAL OF PAPER ON LONG-TERM DOSE ESTIMATES

On September 6, 1991, we briefed the Chairman and Commissioner Curtiss on EPA's high-level waste standards. During that briefing, questions were raised about the means that might be used to project radiation doses far into the future (i.e., thousands of years). The enclosed paper provides staff views on the feasibility of such long-term dose estimates.

A handwritten signature in cursive script, reading "Daniel J. Fehringer".
