Dear Ms. Jacobs:

On April 29, 2003, the Nuclear Regulatory Commission (NRC) issued an Order modifying the operating license for Wolf Creek Generating Station, Unit 1 to: (1) require compliance with a revised Design Basis Threat (DBT); (2) implement new security force personnel training and physical fitness requirements; and (3) prescribe compensatory measures related to fitness-for-duty enhancements applicable to security force personnel.

The DBT Order further requires licensees to implement the revised physical security plans, revised safeguards contingency plans, and revised security force personnel training and qualification plans no later than October 29, 2004.

By letter dated April 29, 2004, you submitted a supplemental response to the DBT Order for Wolf Creek Generating Station, Unit 1.
