Re: Docket No. 50-174  
Facility License No. R-72 as amended

The Pennsylvania State University hereby respectfully requests renewal of Facility License R-72 (as amended) which expires at midnight December 12, 1962.

Specifically The Pennsylvania State University requests that the existing license, as amended, be renewed enabling the University to possess, but not to operate at this time the nuclear research reactor located at the Curtiss-Wright Nuclear Research Laboratory of The Pennsylvania State University at Quehanna, Pennsylvania. In addition, it is requested that the renewed license continue to authorize the University to possess the Special Nuclear Materials received and possessed under the existing license.

All information contained in the University's original application dated September 29, 1960 and amendments thereto dated November 2, 1960, May 17, 1961 and June 6, 1962 is valid and up to date. Radioactivity control and release is in accordance with Industrial Waste Permit No. 26117 issued to The Pennsylvania State University by the Department of Health of the Commonwealth of Pennsylvania.

ACKNOWLEDGED  
B/18
