SUBJECT: SEABROOK STATION, ST. LUCIE, UNITS 1 AND 2, TURKEY POINT, UNITS 3
AND 4 - SUPPLEMENTAL RESPONSE TO THE APRIL 29, 2003, ORDERS
MODIFYING LICENSES FOR REVISED DESIGN BASIS THREAT (TAC NOS.
MC2971, MC2965, MC2966, MC2982, AND MC2983)

Dear Mr. Stall:

On April 29, 2003, the Nuclear Regulatory Commission (NRC) issued Orders modifying the operating licenses for the Seabrook Station, St. Lucie, Units 1 and 2, and Turkey Point, Units 3 and 4, to: (1) require compliance with a revised design basis threat (DBT); (2) implement new security force personnel training and physical fitness requirements; and (3) prescribe compensatory measures related to fitness-for-duty enhancements applicable to security force personnel.

Section III.A.1 of EA-03-086 (DBT Order) required that all licensees submit revised physical security plans, safeguards contingency plans, and guard training and qualification plans, including an implementation schedule, based on the revised DBT, to the Commission for review and approval no later than April 29, 2004. The DBT Order further requires licensees to implement the revised physical security plans, revised safeguards contingency plans, and revised security force personnel training and qualification plans no later than October 29, 2004.

By letter dated April 28, 2004, you submitted a supplemental response to the DBT Order for the Seabrook Station, St. Lucie, Units 1 and 2, and Turkey Point, Units 3 and 4. During the acceptance review of your submittal by NRC staff, the need for additional information in Attachment E was identified. The need for additional information was discussed with Mr. Richard Maier and others of your staff on May 11, 2004. Mr. Maier agreed to furnish a revised Attachment E by May 21, 2004.

The NRC staff will review your physical security plan in the months of May and June, your training and qualification plan during July, and your contingency plan during August. Should further information regarding your submittal be necessary to support our review, you will be notified promptly.

The NRC plans to complete the review of your supplemental responses by October 29, 2004.

Sincerely,

/RA/

John A. Nakoski, Chief
Security Plan Review Team
Project Directorate II
