DOCKET NO. 50-174

THE PENNSYLVANIA STATE UNIVERSITY

NOTICE OF ISSUANCE OF FACILITY LICENSE AMENDMENT

Please take notice that the Atomic Energy Commission has issued Amendment No. 2, set forth below, to Facility License No. R-72. The license authorizes The Pennsylvania State University to possess, but not to operate, the nuclear research reactor facility located at the Curtiss-Wright Nuclear Research Laboratory of The Pennsylvania State University at Quehanna, Pennsylvania. The amendment, as requested by the licensee's application for amendment dated October 25, 1962, extends the term of the license for an additional ten years to December 12, 1972.

The Commission has found that:

- (1) Possession of the reactor in accordance with the license as amended will not present undue hazard to the health and safety of the public and will not be inimical to the common defense and security;
- (2) The application for amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations set forth in Title 10, Chapter 1, CFR;
- (3) Prior public notice of proposed issuance of this amendment is not necessary in the public interest since possession of the reactor in accordance with the license, as amended, will not present any substantial change in the hazards to the health and safety of the public from those considered and evaluated in connection with the previously approved possession.
