As the U.S. Nuclear Regulatory Commission (NRC) continues its review of National Security Information (NSI) that has been determined to be eligible for 25-year automatic declassification under Section 3.3 of Executive Order (EO) 12958, as amended, we identified NSI documents that we believe are your agency's responsibility. Therefore, under Section 3.6 of EO 12958, as amended, we are referring the NSI to your agency for appropriate action.

In summary, NRC is in possession of several documents containing NSA equities. The classified records are part of NRC's permanent historical records and are located in a vault-type room at NRC Headquarters.

Should the DOE decide to access these classified records for further review and disposition, please contact Wayne Burnside of my staff at (301) 415-2211.

Sincerely,
