**Subject:** ANO-1 RELAXATION REQUEST - SUPPORTING INSPECTION RESULTS

Guy,

Terence Chan would like for you to e-mail us with the following information, to verify that the actual inspection results support the relaxation request:

Please provide a compilation, in tabular form, that identifies by penetration number, the angle of the nozzle, the coverage distance achieved above and below the weld, uphill and downhill side, circumferential extent achieved, and plots of each angle location plotting stress vs. distance from below the j-groove weld.

Tom
