*THIS LETTER WAS ISSUED TO THOSE ON THE ATTACHED LIST.*

SUBJECT: NOTIFICATION OF UPCOMING MEETINGS

Dear Sir:

Each year, NRC conducts an integrated assessment of performance, based upon the risk significance of the inspection findings of the NRC's resident and region-based inspectors and the insights gained from the licensee-provided performance indicators. The results are then communicated with the public through public meetings held in the vicinity of each reactor power plant. Nationally, plants with significant performance shortcomings are reviewed by NRC senior management and discussed with the Commission in a public meeting in Rockville, Maryland.

We have completed the assessments associated with the inspection findings and performance indicators for the past year for Diablo Canyon. The results can be found at [http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DIAB1/diab1\\_chart.html](http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DIAB1/diab1_chart.html) and [http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DIAB2/diab2\\_chart.html](http://www.nrc.gov/NRR/OVERSIGHT/ASSESS/DIAB2/diab2_chart.html) for Units 1 and 2, respectively. We have scheduled a public meeting to discuss the results. The meeting for Diablo Canyon is scheduled for 9 a.m. on June 10, 2004 at the PG&E Community Center, 6588 Ontario Road, San Luis Obispo, California 93405.

In addition, we have completed our review of the Diablo Canyon response to the December 22, 2003 San Simeon Earthquake. As a follow-up to the February 4, 2004 public meeting, we will discuss our final conclusions in a public forum. We have scheduled a public town hall meeting at 6:30 p.m. on June 9, 2004 at the Embassy Suites Hotel, 333 Madonna Road, San Luis Obispo, California 93405, to discuss our conclusions concerning the San Simeon earthquake, and any other topics of interest.

In conjunction with these meetings, we are offering all local decision-makers opportunities to meet separately with the NRC managers immediately following the public meetings. These opportunities are intended to provide you a forum to ask any questions that you may have and to let you meet personally the NRC personnel with whom you would interface in the event of an emergency at the nuclear power plant.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

I hope you find this opportunity responsive to your needs and I look forward to personally greeting you at the meeting. Should you have any questions concerning this initiative, please contact me at 805/595-2354.

Sincerely,

*/RA/*

David L. Proulx  
Senior Resident Inspector  
Diablo Canyon
