SUBJECT: POINT BEACH NUCLEAR PLANT, UNITS 1 AND 2 - SUPPLEMENTAL
RESPONSE TO THE APRIL 29, 2003, ORDERS MODIFYING LICENSES FOR
REVISED DESIGN BASIS THREAT (TAC NOS. MC2957 AND MC2958)

Dear Mr. VanMiddlesworth:

On April 29, 2003, the Nuclear Regulatory Commission (NRC) issued Orders modifying the operating licenses for Point Beach, Units 1 and 2 to: (1) require compliance with a revised design basis threat (DBT); (2) implement new security force personnel training and physical fitness requirements; and (3) prescribe compensatory measures related to fitness-for-duty enhancements applicable to security force personnel.

Section III.A.1 of the EA-03-086 (DBT Order) required that all licensees submit revised physical security plans, safeguards contingency plans, and guard training and qualification plans, including an implementation schedule, based on the revised DBT, to the NRC for review and approval no later than April 29, 2004. The Order further requires licensees to implement the revised physical security plans, revised safeguards contingency plans, and revised security force personnel training and qualification plans no later than October 29, 2004.

By letter dated April 29, 2004, you submitted a supplemental response to the Orders for Point Beach, Units 1 and 2.

You provided information on your security plan as it relates to your Independent Spent Fuel Storage Installation (ISFSI). You will be notified by separate correspondence of the NRC staff's plan for review of your ISFSI security plan.

The NRC staff will be reviewing your physical security plan in the months of May and June, your training and qualification plan during July, and your contingency plan during August. Should further information regarding your submittal be necessary to support our review, you will be notified promptly.

G. D. VanMiddlesworth
