

NOTE TO FILE

Docket No.: 07003103

SUBJECT: TELECON WITH R. KRICH REGARDING RESPONSES TO REQUESTS FOR ADDITIONAL INFORMATION RELATED TO THE PREPARATION OF AN ENVIRONMENTAL IMPACT STATEMENT FOR THE LOUISIANA ENERGY SERVICES PROPOSED NATIONAL ENRICHMENT FACILITY

I received a call from Mr. Rod Krich, in regard to Louisiana Energy Services (LES) responses to NRC staff's Requests for Additional Information (RAIs) related to the environmental review for the proposed National Enrichment Facility. Mr. Krich indicated that the NRC staff would receive the responses to the majority of RAIs on May 20, 2004, in accordance with the Commission schedule. However, requested information on waste management impacts from the Capenhurst and Almelo facilities would be provided a few days after May 20<sup>th</sup>. Until these responses are received and reviewed, it cannot be stated with certainty whether this delay in provision of a full and timely response by LES will impact the schedule.
