**Subject:** Documents regarding polling staff for restart concerns

Hi Jim, Attached are the lists of restart concerns that you requested.

The 0350 panel sent out requests to staff in headquarters and Regional offices. In response we received several items, not all specific concerns, but in some cases comments. We placed all 13 on our Restart Action Matrix and followed up on them.

Attached is the ADAMS package of these documents, a listing of all the items, and the associated RAM closure forms.

Let me know if you need any additional information.

Christine
