Gentlemen:

In the Matter of)	Docket Nos.	50-259	50-327

SUPPLEMENTAL RESPONSE TO APRIL 29, 2003, ORDER REQUIRING COMPLIANCE WITH REVISED DESIGN BASIS THREAT (DBT) FOR OPERATING POWER REACTORS (EA-03-086) FOR BROWNS FERRY NUCLEAR PLANT (BFN), UNITS 1, 2, AND 3; SEQUOYAH NUCLEAR PLANT (SQN), UNITS 1 AND 2; AND WATTS BAR NUCLEAR PLANT (WBN), UNIT 1

The NRC issued an Order dated April 29, 2003, Requiring Compliance with Revised Design Basis Threat ("Order EA-03-086" or "Order") and other security-related Orders (collectively "Orders") for BFN, SQN, and WBN.

Section III.A of Order EA-03-086 required licensees to submit revised Physical Security Plans, Training and Qualification Plans, and Safeguard Contingency Plans to meet the requirements of the revised DBT, along with an implementation schedule, to the Commission for review and approval on April 29, 2004. As required, on April 29, 2004, each site (BFN, SQN, and WBN) submitted their revised plans for review and approval.

Attachment A to each site's submittal contained the revised plans. TVA developed these plans to be consistent with NEI-03-12, "Template for the Security Plan, Training and Qualification Plan, Safeguards Contingency Plan, [and Independent Spent Fuel Storage Installation Security Program]."

SAFEGUARDS INFORMATION

To facilitate the NRC's review, Attachment E, *Justification for Alternatives*, to the site's submittals was to include justifications for any of the alternatives provided in NEI-03-12 that TVA had adopted. However, in the April 29, 2004, submittals from the sites, TVA omitted justifications for these alternatives. Enclosed with this submittal are the previously omitted justifications.

This response contains "Safeguards Information" as defined in 10 CFR 73.21. TVA therefore requests that the enclosure be withheld from public disclosure.

No new regulatory commitments are identified in this letter. If you have any questions concerning this matter, please contact me at (423) 751-2508 or Fred Mashburn at (423) 751-8817.

Sincerely,

Mark J. Burzynski
