Specifically, FPL/FPL Energy Seabrook were requested to provide additional information regarding the "Evaluation Criteria For Determining Equivalency Of Alternatives" within the Physical Security Plan (PSP) that was submitted in the aforementioned letter. Additionally, FPL/FPL Energy Seabrook were requested to provide a cross-reference matrix to site-specific references contained in the PSP.

This information is in keeping with the Nuclear Energy Institute (NEI) templates on this subject. The cross-reference matrix is a newly created document that is provided as a roadmap for the staff's review of the PSP.
