Notes
E-Mail #4 from 02/04/04 Tabled because of unknown origin. Mail was originally sent to J. Stasma "I would hate to think that DB leadership is terminating or holding people accountable only because they believe it is what the NRC wants and expects."
The Commission conducted almost quarterly briefings during the Millstone restart process. Commission briefings on DC Cook and Salem restarts were also held. But the Commission held but one short briefing about a year or so ago on Davis-Besse.
nese are incoming public questions on the RATI report. I'd like Rick's support on these. What we usually do is get his questions to gether, review the report, give him a call and then follouwp with an email
The first part of Gurdziel's comments on the RATI report - same plan - can Rick support?
Delay Restart pending establishment of rigorous standards for assessing safety culture.
The third part of Gurdziel's comments on the RATI report. Use Same Plan.
From Gurdziel - specifies that it needs no response.
his is the incoming letter form Donna Leuke
Comments from Congressman Kucinich at the DB Restart Hearing.
Ohio Citizen letter from Sandy Buchanan, Executive Director to James Caldwell.
