**RE: Browns Ferry Nuclear Plant - License Renewal Application**

Dear Project Manager,

The Eastern Band of Cherokee Indians Tribal Historic Preservation Office has the following comments, pursuant to NHPA 36 CFR 800:

According to the information you provided, the EBCI's THPO has determined that the proposed activities will not have an effect on any known cultural resources significant to our Tribe. We have also determined the undertaking will not have an affect on known cultural resources listed on or eligible for the National Register of Historic Places provided that archaeological site 1Li535 is avoided as stated in the BFN License Renewal Final Supplemental EIS. Should any cultural resources be encountered during the proposed project's activities, or should it be deemed necessary to impact site 1Li535, work should cease and this office should be contacted immediately for further consultation.

We appreciate you providing information about this project. If we can be of further service, or if you have any comments or questions, please direct them to me at (828) 488-0237.

Sincerely,

Michelle Hamilton
