RE: Revised LSN Guidelines

Three LSN guidelines have been revised to delete all references to log files, which were utilized in LSN Versions 1 and 2 for auditing purposes, but are no longer used in LSN Version 3. The revised documents are Guideline 3, Solution for LSN Implementation; Guideline 12, Auditing System; and Guideline 22, Setting Up a Licensing Support Network Participant Repository. The revised documents are being transmitted to you via this letter. A change (addition or deletion) from the prior version of a guideline is identified by redline.

As a result of the above modifications to the guidelines, the Table of Contents and Appendix A, Acronyms were revised.

These guidelines in no way affect or supersede or otherwise relieve a participant from compliance with the Commission's Rules of Practice in 10 C.F.R. Part 2. They document the decisions reached by the LSNARP and the implementation of the LSN technical solution.

Input from the LSNARP regarding the revisions to guidelines is encouraged and will be documented and added to the guidelines, as appropriate.

Please delete or remove the current Cover and Table of Contents, Guidelines 3, 12, and 22, and Appendix A and replace them with the attached revisions. The online guidelines posted on the LSN web site will be revised accordingly.
