

June 1, 2004

Mr. James F. Klapproth, Manager  
Engineering & Technology  
GE Nuclear Energy  
175 Curtner Avenue  
San Jose, CA 95125

SUBJECT: ACCEPTANCE OF NEDE-33147P, "DSS-CD TRACG APPLICATION"  
FOR REVIEW (TAC NO. MC1967)

Dear Mr. Klapproth:

By letter dated February 27, 2004, GE Nuclear Energy (GENE) submitted for NRC staff review Licensing Topical Report (LTR) NEDE-33147P, "DSS-CD TRACG Application." The NRC staff has performed an acceptance review of the DSS-CD TRACG Application LTR. We have found that the material presented is sufficient to begin our comprehensive review. The staff expects to complete its review by May 30, 2005, and estimates that the review will require approximately 1200 staff hours including project management time, and the estimated contractor cost of \$110,000 dollars. The review schedule milestones and estimated review costs were discussed and agreed upon in a telephone conference between George Stramback and myself on May 24, 2004.

Section 170.21 of Title 10 of the Code of Federal Regulations requires that LTRs are subject to fees based on the full cost of the review. You did not request a fee waiver; therefore, staff hours will be billed accordingly.

Sincerely,

/RA/

Mel B. Fields, Senior Project Manager, Section 2  
Project Directorate IV  
Division of Licensing Project Management  
Office of Nuclear Reactor Regulation

Project No. 710
