Subject: quarterly reports - response to 3/22 call		
<p>Glenn Roberts left the following responses to my 3/22 questions on my voice mail:</p> <ol style="list-style-type: none">1. There were no river discharges until February 2004, so the 2003 Fourth Quarter report does not include any releases to the river.2. He understands that the next report needs to include releases to the river and to sewer.3. He would like to discuss format of future reports. (The questions was: Graphs currently use the sewer release limits as the limiting criteria. The river criteria is a factor of 10 lower, and needs to be used, or they should describe alternate methodology to demonstrate that they are meeting the public dose limits.)		
Action Required/Taken: Copy of telecon record to ADAMS file.
