Revision 2 to the Supplemental Response to the April 29, 2003 Order dated April 27, 2004

Dear Ms. Vietti-Cook:

The NRC issued an Order dated April 29, 2003, Requiring Compliance with Revised Design Basis Threat ("Order EA-03-086" or "Order") and other security related Orders (collectively "Orders") for the Edwin I. Hatch Nuclear Plant (HNP), the Joseph M. Farley Nuclear Plant (FNP) and the Vogtle Electric Generating Plant (VEGP) all operated by Southern Nuclear Operating Company (SNC). SNC provided a supplemental response on April 27, 2004 which transmitted a common SNC Security Plan. On May 10, 2004, SNC provided a single page revision to the SNC Security Plan at the request of NRC staff. This letter further revises the same section of the SNC Security Plan as committed to in the April 27, 2004 letter and provides a replacement Enclosure 5 to that letter which now provides SNC's completed evaluation regarding the search criteria.

In accordance with 10 CFR 2.202(b), the following affirmation is provided:
