

June 4, 2004

Mr. Larry W. Boyd  
Isotopes Program Coordinator  
Program Coordination Division  
U. S. Department of Energy  
Oak Ridge Operations Office  
P. O. Box 2001  
Oak Ridge, TN 37831

Dear Mr. Boyd:

This is in response to your April 14, 2004, letter in which you requested cancellation of Sealed Source and Device (SS&D) Registration No. NR0277S107S and relief from the fees assessed in our March 15, 2004, letter. As explained below, I am extending the period of time to file for cancellation of Registration No. NR0277S107S for the purpose of avoiding annual fees for several of the years the registration remained in effect. Your request for cancellation of SS&D Registration No. NR0277S107S has been forwarded to the NRC's Office of Nuclear Materials Safety and Safeguards (NMSS) for further processing. NMSS will notify you by letter when the termination is completed.

The basis of your request for relief is that it has been over twenty years since you produced these sources and you have no plans to manufacture any in the future.

Based on NRC's administrative oversight resulting in annual fees not being assessed during the period that you held the license, yet did not use or intend to use the registration, I hereby grant an extension of time to April 14, 2004, to file for cancellation of Registration No. NR0277S107S. This action will void the annual fees previously assessed to you in NRC's March 15, 2004, letter, and for fiscal year 2004 which have not been billed.

Sincerely,

*/RA/*

Jesse L. Funches  
Chief Financial Officer

cc: K. Brock, NMSS
