Dave,

Gordon, John and I spent 90 minutes going over the info in allegation 97-33 at FitzPatrick. We concluded the following:

- 1) In order to meet the timeliness clock and given the nature of the issue provided, we want to put all the info raised by the allegor during his 4/25 interview in a new allegation file; otherwise, we'll never get it done in time;
- 2) We want to ask OI to interview the allegor and the people he said were the subject of H&ID;
- 3) We want to know whether the allegor objected to referring any of his concerns to NYPA (or if I can call him and ask him this via phone); if not, then we will propose referring a good percentage of his 4/25 material to NYPA;
- 4) Gordon wants to talk with him directly to get more details - Is this okay to do before the APM?; and,
- 5) If we elect to inspect most or all of his issues, we will have to ask for a man-week each of DRS Engineering and Fire Protection help by August in order to resolve the allegation on schedule.

Please get back to me when you can and put this on the APM for Wednesday. Thanks!!

Rich
