Subject: Issues in RI-97-A-0033

Gordon,

I sorted through the materials provided by the allegor and came up with the attached list. After I clear it with Curt and Dave Vito, we'll discuss where we go from here.

Since you have all of the allegor's materials that he provided, I would appreciate if you could look over the 4/4/97 DER issues and see if you can revise and clarify the inspection writeup that Wayne Schmidt gave you. I can't understand the points he was trying to make nor figure out what parts of this allegation we can take credit for closing.

We are likely going to need DRS help in reviewing this matter. Thus the next step for many of these issues will be soliciting DRS assistance through an allegation panel.

Rich
