Dave,

Could you put 97-33/126 on the schedule for Wednesday for repaneling? I can tie in via phone from FitzPatrick if need be.

Also, I talked with NYPA Corporate Security and the site Speakout representative. They intend to press ahead with their investigation of both his technical and H&ID issues. They showed me copies of all of the correspondence we sent to him as well as other documents which summarized his issues; therefore, I know that they have all of his issues. I told them that I would inform them of our plans in this matter after management made a decision on how to proceed (which I said would likely occur this Wednesday). Thanks!

Rich
