

June 7, 2004

MEMORANDUM TO: Charles L. Miller, Director
Division of Industrial and Medical Nuclear Safety
Office of Nuclear Material Safety
and Safeguards

FROM: Robert C. Pierson, Director /RA/
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards

SUBJECT: REQUEST FOR CONFORMING CHANGES TO PART 70

The purpose of this memorandum is to request end-of-year, minor conforming changes to the regulations in 10 CFR Part 70. It has come to my attention that specific sections of these regulations (attached) contain incorrect citations to other sections. These errors were introduced when the regulations were substantially revised in September 2000, to include the Subpart H requirements for Integrated Safety Analyses.

If you have any questions, please contact David Brown of my staff at (301) 415-5257.

Attachment: Recommended conforming changes to 10 CFR Part 70
