Twenty-Day Response to First Revision of NRC Order Modifying Licenses (EA-03-009)

Dear Commissioners and Staff:

By letter dated February 20, 2004, "Issuance Of First Revised NRC Order (EA-03-009) Establishing Interim Inspection Requirements For Reactor Pressure Vessel Heads At Pressurized Water Reactors," the U.S. Nuclear Regulatory Commission (NRC) issued an Order to Pacific Gas and Electric Company (PG&E) that modifies the current operating licenses for Diablo Canyon Power Plant, Units 1 and 2. The Order was immediately effective.

Pursuant to 10 CFR 2.202, PG&E files this answer consenting to the NRC Order, and indicating its decision to not request a hearing.

If you have any questions or require additional information, please contact Stan Ketelsen at (805) 545-4720.

Sincerely,

James R. Becker
