U.S. Nuclear Regulatory Commission

Washington, D.C. 20555-0001

6/9/04

I am opposed to Duke's request to amend the operating license for its Catawba Nuclear Station to allow the use of four mixed oxide (MOX) lead test assemblies at the station. The dangers of MOx fuels are clear, and our communities deserve better.

Please reject Duke's proposal and protect NC communities.

THANKS for your service~
