Dear Dr. McLaughlin,

Reference Jefferson Proving Ground (JPG) License Number SUB1435 and Nuclear Regulatory Commission (NRC) letter dated May 20, 2004, subject: Request for Additional Information to Support NRC Evaluation of the Proposed Changes to the Environmental Radiation Monitoring Program Plan for Jefferson Proving Ground. My staff has reviewed the issues provided by the NRC and would like to schedule a meeting on July 27, 2004 to be held at NRC Headquarters. This meeting was suggested in your letter so that we may obtain additional detail and clarification to assist us in our response and will include attendance by the JPG Radiation Safety Officer, the JPG BRAC Environmental Coordinator, Legal Counsel, and our contractor, SAIC.

I am forwarding a copy of this letter to AMC Safety Office, Headquarters, US Army Materiel Command, (AMCPE-SF), 5001 Eisenhower Avenue, Alexandria, Virginia 22333-0001.

Ms. Joyce Kuykendall, JPG License Radiation Safety Officer, may be contacted for additional information at (410) 436-7118, facsimile (410) 612-5377, or by E-mail at joyce.kuykendall@us.army.mil.

Sincerely,

Mike G. Mullins
