Dear Mr. Giitter:

The State of New Mexico requests to review the Site Security Plan for the proposed National Enrichment Facility (NEF) in Eunice, New Mexico, as included in NEF's license application packet.

Due to the possibility of accidents and the ongoing threat of terrorist attacks, the State of New Mexico needs to know what NEF's security plans are in order to ensure that any emergency response involving NEF will be efficiently coordinated in accordance with both State and Federal laws and procedures.

We understand that a section of the Site Security Plan is classified. We are not requesting to review that section at this time; we are only requesting the remainder of the document, which is classed as Safeguards Information. Please mail this material to: W. Scott Field, NM Department of Public Safety, Office of Emergency Management, PO Box 1628, Santa Fe, NM 87504-1628. Mr. Field is currently the state official designated to receive advance shipment notification and Safeguards Information notices from the NRC. If you have any questions, please contact Mr. Field at (505) 476-9628.

Thank you for your time and assistance.

Sincerely,

C. R. Maldonado
