

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555

December 12, 1991

OFFICE OF THE
COMMISSIONER

MEMORANDUM FOR: Samuel J. Chilk
Secretary

FROM: James R. Curtiss *James R. Curtiss*

SUBJECT: LSS COMPLIANCE PROGRAM

In a memorandum to the Commission dated November 8, 1991, the LSS Administrator outlined an approach to assessing compliance with certain provisions of the LSS rule related to the submission of documentary material.

Upon reviewing the subject memorandum, I believe it would be advisable to await the outcome of the pending discussions with the Department of Energy (DOE) on the scope and schedule for the LSS program, before addressing the issues that are the subject of this memorandum. At that time, and based upon the outcome of these discussions, I would recommend that the issues addressed in the subject memorandum be revisited by the LSS Administrator, with further detailed discussion of the most appropriate course of action. A decision on the compliance issues, as well as a decision on the need for an additional FTE for the LSSA, can then be made at that time, based upon the scope and schedule for the LSS agreed upon by the two agencies and OMB.
