**Comment:**

In the Revision 1 (June 1986) version of 7.10, there is a subsection 1.2.2 Personnel, which discusses the requirements for training and qualification of personnel. In the draft DG-7004, the only reference to training is found in Section 2.2, third bullet. Has the amplification of the training and qualification requirements noted in Revision 1 been deleted from DG-7004?
