

**A Survey of Waterford Residents on Taxes, Town Services,
and Dealing with the Loss of Revenue from Millstone**

Conducted by:

**Center for Survey Research and Analysis
University of Connecticut**

November 2000

This report reviews the key findings from a scientific survey of 1,008 Waterford, CT residents. The survey was conducted by the Center for Survey Research and Analysis at the University of Connecticut.

The survey was conducted by telephone from October 3 through October 21, 2000. Sampling error for the survey is +/- 3% at the 95% level of confidence. The purpose of the survey was to measure attitudes about town services and local taxes in light of the situation created by the sale of the Millstone facility.

A full copy of the questionnaire and results is attached to this summary of findings. Also attached is a set of data tables that break down responses by key subgroups, such as gender and age.

These are the key findings from the survey:

I. Ratings of the Town and Town Services

Residents were asked to rate the quality of life in Waterford, and most offer a positive rating. Half of residents (50%) rate the quality of life in the town as "excellent," and another 45 percent say it is "good." Four percent rate the quality of life in Waterford as "fair," and zero percent say "poor."

When asked about how the quality of life in town has changed over the past 5 years, 21 percent say that it has "gotten better" while 7 percent say it has "gotten worse." About two-thirds (65%) of residents say that the quality of life in Waterford has "stayed about the same" over the past 5 years.

In looking to the future, 44 percent believe that over the next five years the quality of life in the town will not change. The number who feel that life in Waterford will "get better" (24%) is about the same as the number who feel it will "get worse" (23%).

Residents are enthusiastic about Waterford as a place to raise a family. Fifty-five percent indicate that Waterford is an "excellent" place to raise a family, and another 38 percent say it is a "good" place to raise a family. Only 5 percent say it is a "fair" place to raise a family and zero percent say it is "poor."

When asked to rate the quality of the environment in Waterford, 28 percent say "excellent," 55 percent say "good," 13 percent say "fair," and 3 percent say "poor."

Residents give similar ratings to Waterford as a place to do business. One-quarter (25%) feel that the town is an "excellent" place for businesses to operate, half (50%) say it is "good," 12 percent say "fair," and 3 percent feel it is "poor."

In thinking about the job that Waterford town government is doing, 11 percent give a rating of “excellent,” 57 percent say “good,” 22 percent say “fair,” and 3 percent say “poor.”

In addition to an overall rating of town government performance, the survey asked residents to rate specific services provided by the town. The following shows these ratings:

	<u>Excel-</u> <u>lent</u>	<u>Good</u>	<u>Fair</u>	<u>Poor</u>	<u>DK</u>
Fire protection	57%	33%	2%	0%	7%
Refuse collection	54%	39%	4%	1%	3%
Library services	53%	36%	4%	0%	7%
Parks/Recreation	50%	40%	6%	1%	4%
Ambulance service	49%	27%	2%	1%	22%
Public schools	42%	40%	7%	1%	10%
Snow plow and ice control	37%	47%	12%	2%	3%
Street cleaning/maintenance	36%	49%	12%	3%	1%
Police department	33%	52%	9%	3%	3%
Social/youth services	27%	42%	10%	2%	20%

II. Awareness and Concern of Millstone Situation

The survey asked Waterford residents about their level of awareness of how the sale of Millstone affects local taxes. About half (51%) of residents say they have read or heard “a lot” about this, another one-quarter (26%) say “some,” 16 percent say “a little,” and only 6 percent have read or heard “nothing” about this issue.

Along with relatively high levels of awareness of the situation, many residents express concern about the loss of tax revenue to the Town. Specifically, 43 percent say they are “very” concerned about this problem, and another 39 percent are “somewhat” concerned. Less than one-in-five are either “not too” (13%) or “not at all” concerned (4%).

The salience and concern about the Millstone issue is also reflected in responses to an open-ended question about the most important issue facing the town. Twenty-seven percent of residents single out the Millstone sale as the single most important issue facing Waterford, and another 16 percent say the potential increase in property taxes is most important. After these two issues, the next most commonly mentioned issue is the quality of education which is mentioned by 6 percent of residents.

III. Public Attitudes about How to Deal with Tax Losses

Residents were asked a variety of questions on how the town should deal with the loss of tax revenue from Millstone. The first question queried residents on what the overall approach should be by asking them to choose which of the following three statements best expressed their own opinion:

1. The town should significantly increase local taxes to cover the loss of revenue from Millstone and maintain town services at the current level.
2. The town should not raise local taxes at all, but cut down substantially on town services.
3. The town should both increase taxes and cut services.

No single approach achieves majority support. The town residents are about equally divided between only raising taxes (30%) and only cutting services (31%). A plurality, however, favor a combination of tax increases and service cuts (38%).

IV. Attitudes about Taxes

Waterford residents overwhelmingly agree that they get their money's worth for the local property taxes that they pay. Specifically, 85 percent say they get their money's worth while only 12 percent say they pay too much for what they get in town services.

Also, a strong majority (77%) describe the current level of property taxes in Waterford as "about right." Ten percent say that taxes in the town are "too high," while another 10% say they are "too low."

Residents were asked about how acceptable it would be for the town to increase property taxes to make up for the loss of revenue from the sale of Millstone. Specifically, they were asked the following:

"The Town estimates that it will need to raise local property taxes to make up for the loss of Millstone. With the loss of taxes from Millstone, the town thinks it will need to raise property taxes by 6 percent for each year over the next 10 years. Would the 6 percent annual increase in local property taxes be acceptable to you, or not?"

This same question was repeated three times, asking about an annual increase in local property taxes of 5 percent, 4 percent and 3 percent, respectively.

The findings from this set of questions follows:

- One-quarter (25%) of residents say that a tax increase at any level is not acceptable.
- One-third (33%) of residents say that they would accept an annual tax increase of 6 percent over the next 10 years.
- Forty-two percent of residents say they would accept an annual tax increase of 5 percent over the next 10 years.
- Fifty-seven percent of residents say they would accept an annual tax increase of 4 percent over the next 10 years.
- Three-quarters (75%) of residents say they would accept an annual tax increase of 3 percent over the next 10 years.

The survey results, then, suggest strong majority (75%) acceptance of a 3 percent annual increase in local property taxes over the next ten years as a way to help make up for lost revenue from the sale of Millstone. A slimmer majority (57%) are willing to accept an annual increase of 4 percent. At the 5 percent annual increase level, however, less than a majority (42%) are willing to accept the increase.

V. Attitudes about Increased User Fees

Residents were asked if it is acceptable or unacceptable for the town to increase fees for certain services and permits as a way to offset the loss of tax revenue from the sale of Millstone. The following are the results of the survey:

	<u>Acceptable</u>	<u>Unacceptable</u>	<u>DK</u>
Raise building permit fees	69%	21%	10%
Raise parks/rec. fees	58%	38%	4%
Raise garbage disposal fees	40%	53%	7%
Raise sewerage use fees	38%	54%	8%
Raise public water use fees	37%	55%	9%

The survey finds that a majority of residents say it is acceptable to them for the town to increase building permit fees (69%) and parks and recreation fees (58%).

VI. Attitudes about Cutting Town Services

In addition to evaluating public opinion regarding increasing taxes and fees to deal with the Millstone situation, town residents were also asked if they would support or oppose cuts in 10 specific services to help offset the impact. In no single area is there majority support for cutting services. In a number of areas, there is very strong opposition to service cuts. The following depicts these results:

	<u>Strongly support</u>	<u>Somewhat support</u>	<u>Somewhat oppose</u>	<u>Strongly oppose</u>	<u>DK</u>
Parks and Rec.	12%	31%	34%	19%	3%
Street maintenance	9%	27%	33%	28%	3%
Library services	9%	22%	31%	34%	4%
Social/youth svcs.	8%	21%	31%	33%	8%
Police protection	10%	17%	18%	53%	2%
Refuse collection	6%	18%	27%	45%	4%
Fire protection	9%	12%	17%	61%	2%
Snow/ice removal	8%	13%	25%	53%	3%
Public education	8%	9%	14%	67%	3%
Ambulance services	6%	10%	18%	61%	6%

Opposition to cuts in services is particularly strong in the following areas: public education, fire protection, ambulance services, police protection, snow/ice removal and refuse collection.

VII. Communicating with Residents

As the town considers various options for dealing with the loss of revenue from Millstone, it needs to develop plans for communicating with the public. The survey indicates that the best source for providing information to the public is through the New London Day. Fully 72 percent of residents indicate that their single main source of information about what is happening in town is the New London Day.

Q20. As you may know, electric utility deregulation is requiring that Northeast Utilities sell its interests in the Millstone Nuclear Power Plant in Waterford. This sale will reduce the assessed value of the facility. Since local tax revenue from Millstone accounts for two-thirds of the local taxes, Waterford's tax revenues will substantially decline over the next 5 to 10 years. How much have you read or heard about this issue?

WATERFORD TOWN SURVEY

Hello. My name is _____ and I'm calling from the Center for Survey Research at the University of Connecticut. We are conducting survey on important issues facing Waterford residents. May I please speak with the person in the household who is 18 years of age or older with the next birthday.

Probe if necessary: We are not going to try to sell you anything. We are only interested in getting your opinions about issues facing Waterford.

Q1. What town do you live in? (If NOT Waterford, say "Thank you very much for your time but we are only speaking with Waterford residents".) NOTE: THOSE SAYING THEY ARE FROM QUAKER HILL ARE WATERFORD RESIDENTS

Waterford
Other
DK/Ref

Q2. Overall, how would you rate the quality of life in Waterford? Would you rate it as excellent, good, fair or poor?

(N= 1008)

Excellent	50%
Good	45%
Fair	4%
Poor	0
DK/Ref	0

Q3. What would you say is the most important issue facing the town of Waterford? (ASK OPEN-ENDED). PROBE: Are there any other major issues facing the town?

(N= 1008)

Value of Millstone	27%
Taxes	16%
Education	6%

Q4. Would you say the overall quality of life in Waterford in the past five years has gotten better, gotten worse, or stayed about the same?

(N= 1008)

Gotten better	21%
Gotten worse	7%
Stayed about the same	65%
DK/Ref	6%

Q5. And over the next five years, do you think the quality of life in Waterford will get better, worse, or stay about the same?

(N= 1008)

Get better	24%
Get worse	23%
Stay about the same	44%
DK/REF	9%

Q6. Overall, would you say that local property taxes in Waterford are too high, too low, or about right?

(N= 1008)

Too high	10%
Too low	10%

DK/REF 3%

Q7. And would you say that you get your money's worth for the local taxes you pay or do you think you pay too much in taxes for the Town services that are provided?

(N= 1008)

Get money's worth	85%
Pay too much for what you get	12%
DK/REF	4%

(N= 1008)

Excellent	53%
Good	36%
Fair	4%
Poor	0%
DK/Ref	7%

Q20. As you may know, electric utility deregulation is requiring that Northeast Utilities sell its interests in the Millstone Nuclear Power facility in Waterford. This sale will reduce the assessed value of the facility. Since local tax revenue from Millstone accounts for two-thirds of the local taxes, Waterford's tax revenues will substantially decline over the next 5 to 10 years. How much have you read or heard about this issue – a lot, some, a little, or nothing at all?

(N= 1002)

A lot	51%
Some	26%
A little	16%
Nothing	6%
DK/REF	1%

Q21. How concerned are you about the loss of tax revenue to the Town from the sale of Millstone – are you very concerned, somewhat concerned, not too concerned, or not at all concerned about this?

(N= 1008)

Very concerned	43%
Somewhat concerned	39%
Not too concerned	13%
Not at all concerned	4%
DK/REF	2%

Q22. I am going to read you three statements regarding the towns approach to dealing with the loss of tax revenue from the sale of Millstone. Please tell me which comes closest to your view of how the Town should address this problem. First, the Town should significantly increase local taxes to cover the loss of revenue from Millstone and maintain town services at the current level; second, the Town should not raise local taxes at all but cut down substantially on town services; or third, the Town should increase taxes and cut town services?

(N=901)

Increase Taxes/not cut services	30%
Cut services/not increase taxes	31%
Increase taxes and cut services	38%

Q23. The Town estimates that it will need to raise local property taxes to make up for the loss of revenue from the sale of Millstone. With the loss of taxes from Millstone, the Town thinks it will need to raise property taxes by 6 percent for each year over the next 10 years. Would the 6 percent annual increase in local property taxes be acceptable to you, or not?

(N=1008)

Acceptable	33%
Not Acceptable	67%

Q24. What about if the Town needed to increase taxes by 5 percent annually for the next ten years. Would this be acceptable to you or not?

(N= 1008)

Acceptable	42%
Not Acceptable	58%

Q25. What about if the Town needed to increase taxes by 4 percent annually for the next 10 years. Would this be acceptable to you or not?

(N= 1008)

Acceptable 57%

Not Acceptable 43%

Q26. What about if the Town needed to increase taxes by 3 percent. Would this be acceptable to you or not?

(N= 1008)

Acceptable 75%

Not Acceptable 25%

Q27. The Town is also considering increasing the fees for use of certain services and permits. Please tell me if you think raising the fees for the following is an acceptable way or an unacceptable way to offset the loss of tax revenue from Millstone. First, how about raising (READ ITEM). Is this acceptable or unacceptable.

Q27a. Public water use fees

(N= 1008)

Acceptable 37%

Unacceptable 55%

Don't know 9%

Q27b. Sewerage use fees

(N= 1008)

Acceptable 38%

Unacceptable 54%

Don't know 8%

Q27c. Fees for using parks and recreation areas

(N= 1008)

Acceptable 58%

Unacceptable 38%

Don't know 4%

Q27d. Garbage disposal fees

(N= 1008)

Acceptable 40%

Unacceptable 53%

Don't know 7%

Q27e. Building permit fees

(N= 1008)

Acceptable 69%

Unacceptable 21%

Don't know 10%

In addition to raising taxes, cutting town services is another way to deal with the loss of revenue from the sale of Millstone. I am going to read a list of services offered by the Town of Waterford. For each, please tell me if you would support or oppose making cuts in Town services in each area. First, how about (READ ITEM). Would you support or oppose cutting services in this area? PROBE: Would you strongly or mildly (support/oppose) this?
