Dr. English Pearcy, Manager
Geohydrology and Geochemistry Element
Center for Nuclear Waste Regulatory Analyses
6220 Culebra Road, Building 189
San Antonio, TX 78238-5166

SUBJECT: REVIEW OF U.S. DEPARTMENT OF ENERGY RESPONSE TO U.S. NUCLEAR
REGULATORY COMMISSION/U.S. DEPARTMENT OF ENERGY AGREEMENT
ENFE 2.18 [ENFE Deliverable IM 20.06002.01.071.413]

Dear Dr. Pearcy:

The U.S. Nuclear Regulatory Commission (NRC) staff has completed its review of the subject report by the Center for Nuclear Waste Regulatory Analyses (CNWRA). On June 17, 2004, we received the report reviewing the U.S. Department of Energy's (DOE) response to the NRC/DOE agreement ENFE 2.18. This material should remain predecisional and not be released to the public at this time.

The CNWRA report is programmatically and technically acceptable. In addition, the CNWRA review provides an excellent discussion about DOE's approach for addressing the subject agreements. The CNWRA input will be valuable in helping to complete our review. If you have questions, please contact David Brooks, at (301) 415-7284.

Sincerely,

/RA/

David Brooks, ENFE Program Element Manager
Division of High-Level Waste Repository Safety
Office of Nuclear Material Safety
and Safeguards
