Mr. John Hyndman, Director
National Training Center
Safeguards and Security Central Training Academy
Department of Energy
P.O. Box 18041
Albuquerque, NM 87185

SUBJECT: TRAINING FOR COMPOSITE ADVERSARY FORCE

Dear Mr. Hyndman:

Wackenhut Nuclear Services (WNS) are currently under contract with the nuclear industry to create, train and manage a Composite Adversary Force (CAF) that will support force-on-force (FOF) exercises at the U.S. Nuclear Regulatory Commission's (NRC's) licensed facilities.

The NRC requests permission for WNS to be allowed access to the Central Training Academy (CTA) facilities for three weeks of initial basic training for the CAF Team. The impact on CTA resources would be limited to classroom and range usage. After this period of initial training, WNS will independently arrange with CTA one to three weeks annually for refresher training.

Any assistance you could provide in facilitating the CAF training at your facilities would be appreciated. Please contact Ron Albert at (301) 415-6692 if you have any questions.

Sincerely,

/RA/

Glenn M. Tracy, Director
Division of Nuclear Security
Office of Nuclear Security and Incident Response
