	AVG	Max
Reedsville	0.045 MGD	1 MGD
Kiel	0.415	2.66
Manitowoc	8	11 + Groundwater
Maribel	0.025	0.72
Kellnersville	0.32	0.5
Cleveland	0.12	
Mishicot	0.15	
St. Nazianz	0.06	
Two Rivers	1.3	
Whitelaw	0.055	
Valders	0.12	

I looked back on recent monthly reports to come up with an average. I don't have recent sanitary survey data on the municipalities not showing a maximum production. If you would like I can give you the contact information for the operators and they can tell you what the production is of all their wells. Manitowoc has a surface water treatment system. They can also supplement this with groundwater wells. Hope this helps!!
