Dear Ms. Wong,

Concerned Citizens for Nuclear Safety request that the findings of the July 2004 report by the General Accounting Office entitled, "Uranium Enrichment: Decontamination and Decommissioning Fund is Insufficient to Cover Cleanup Costs," be included in the administrative record for the draft environmental impact statement for the uranium enrichment facility proposed by Louisiana Energy Services (LES) for Lea County, NM. The report can be found at:

<http://www.gao.gov/cgi-bin/getrpt?GAO-04-692>

CCNS requests that the NRC review the GAO findings and include an analysis in the draft EIS, specifically addressing the plausibility of the waste disposition scenario presented by LES regarding the Department of Energy.

Should you have any questions or comments, please contact me.

Thank you,
Amy Williams
