Mr. Sunil Weerakkody  
Fire Protection Section Chief, DSSA  
U.S. Nuclear Regulatory Commission  
Mail Stop O11-A11  
Washington, DC 20555-0001

PROJECT NUMBER: 689

During a recent public meeting on fire protection issue management we agreed to offer industry evaluation on the combustibility of epoxy coatings in nuclear plants.

We are enclosing a draft position paper that provides a basis for closure. We invite your comments or further discussion in order to resolve this issue in a manner appropriate to its low risk significance.

Alex Marion  
Senior Director, Engineering  
Nuclear Generation Division
