**Subject:** Routine RWPs for 2004

All,

The 2004 RWPs will be ready for your review and signature Tuesday; January 6, 2004 at the main RP checkpoint. RP will arrange to meet with various work groups at their morning meetings on Wednesday; January 7<sup>th</sup> to relieve congestion at the checkpoint. The new RWPs will go live the morning of January 8<sup>th</sup>.

The table below shows the RWP numbers and descriptions. As always, the red letters and numbers indicate that the RWP allows for High Radiation Area entry.

Please note that the dose rate and accumulated dose setpoints for *many* of these RWPs have been changed to more conservative levels, in keeping with industry standards. This will require careful consideration of area dose rates prior to beginning work, as well as checking with RP, in order to avoid dosimetry alarms.

RWP Number	Job Description
RWP #	Description
04-00001	General Access
04-00002	RP Routine
04-00003	OPs Rounds
04-00004	Chemistry Routine
04-00005	Minor Maintenance
04-00006	Locked High Rad
04-00007	Trash and laundry
04-00008	Source Use
04-00009	Cask Room
04-00010	HRA Minor Maintenance
04-00011	Rad Materials Outside RCA
04-00012	Decon Booth
04-00013	Scaffolding
04-00014	HRA Scaffolding
04-00015	Refuel Floor
04-00016	Spent Fuel Pool
04-00017	Movats
04-00018	HRA Movats
04-00019	Noble Metals Panel
04-00020	PASS Panel
04-00021	Change H2 detectors in AOG
04-00022	ROV
04-00023	FIN Team
