**To:** VTY - All Users  
**Subject:** Access of NMM Procedures / Policies

## **How to Access the NMM**

Redesign of the Entergy websites and continued movement toward North-South integration has resulted in reformat of the Entergy Nuclear Management Manual Reference Library (and consequently, the means by which to access NMM Policies and Procedures). This change became effective during the past day or so. A User Guide has been developed to assist in the access of NMM Policies and Procedures, and can be viewed using either the following link (or via the Tech Support /Document Control web page).

### **NMM Access User Guide**

We apologize for the lack of advance notification regarding this change. We will be investigating the basis for our (ENVY) lack of advance notification through the fleet Corrective Action process.

Once you have reviewed the User Guide, if you have any questions, please contact Mona Houle at extension 3136.
