Subject: EPlan Procedure Changes

A number of Emergency Planning Implementing Procedures and the Emergency Plan have been revised and will be effective on April 28, 2004. A detailed description of each of the changes can be found at the following link:

http://dev.vty.entergy.com/Departments/Emergency_Planning/htm%20pages/Recent%20Procedure%20Changes.htm

If this link does not work, you can access the page by going to the Vermont Yankee web site and selecting Emergency Planning under departments. Go to E-Plan Documents, from the menu on the left, and it is the first item listed.

If you have any questions, please contact me.
