Subject: Updated: EPU meeting w/ Bill Ruland, NRR
When: Tuesday, March 30, 2004 1:00 PM-3:00 PM (GMT-05:00) Eastern Time (US & Canada).
Where: Board Room, Brattleboro

Dave - Sending to you for your information. -- Ronda

Bill Ruland, NRR Director of Project Directorate 3 (includes EPU) will be arriving Tuesday, March 30th in preparation for the March 31st public meetings. He requested a meeting with EPU the afternoon of March 30th. Jim and I talked with him regarding an agenda and timeframe. We agreed to 1-3pm in the Brattleboro Board Room.

Agenda:

1. Walk thru PC 263 submittal including what we see as issues and our perspective:
 - a. Containment overpressure
 - b. Single failure (torus - Rx Bldg vacuum breakers)
 - c. GE model for containment overpressure
 - d. Steam dryer: vibration analysis, planned monitoring
2. Engineering Modifications overview
3. RAIs that we have received
4. Review Process (our concerns)
5. Trouble spots with the application

On the 31st, he would like to tour the plant & walk down some of the planned modifications.

Bill would also like to meet with Jay, Kevin and Bob.
