August 2, 2004

NRC TO HOLD PUBLIC MEETING AUGUST 17 ON ISSUES ASSOCIATED WITH LARGE LOSS-OF-COOLANT ACCIDENTS

Nuclear Regulatory Commission staff will meet with interested stakeholders on August 17 in Rockville, Md., to discuss issues relating to the possible use of risk information in setting requirements for addressing large-break loss-of-coolant accidents at nuclear power plants.

The meeting will be held in the Auditorium at Two White Flint North, 11545 Rockville Pike, from 9 a.m. until 5 p.m. The discussions will assist NRC staff in formulating a regulatory analysis for a possible rulemaking. Documents describing the basis for the rulemaking will be available on the Internet at this address: <http://ruleforum.llnl.gov/> .

Members of the public are invited to participate by discussing these issues with NRC staff at designated points during the meeting. For more information on the meeting, contact George Mencinsky at 301-415-3093 or via email at gjm@nrc.gov .
