

August 3, 2004

Mr. James R. Cromeenes  
29 Marberry Dr  
Metropolis, IL 62960-1132

Dear Mr. Cromeenes:

I am responding to your letter to the U.S. Nuclear Regulatory Commission (NRC) dated July 7, 2004, requesting a record of your radiation exposure. We have searched the NRC and the Department of Energy (DOE) databases of occupational radiation exposure monitoring data and have not found any records related to you.

The legal dose of record is required to be maintained at the monitoring site, and after contacting the site, it is my understanding that per your written request, you were sent a copy of your radiation exposure record(s), by certified mail, on October 16, 2003. It is my conclusion that the NRC does not have any other records to offer.

I hope this information is helpful to you. If you have any further questions, please contact Mr. Michael G. Raddatz of my staff at (301) 415-6334.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

**/RA/ Robert Nelson for**

Gary S. Janosko, Chief  
Fuel Cycle Facilities Branch
