SUBJECT: HOPE CREEK GENERATING STATION, CORRECTION TO REQUEST FOR
ADDITIONAL INFORMATION (TAC NO. MC1224)

Dear Mr. Bakken:

By letter dated October 23, 2003, PSEG Nuclear, LLC submitted license amendment request LCR H03-07 for the Hope Creek Generating Station (Hope Creek) seeking approval of proposed changes to the Hope Creek Technical Specifications. Specifically, the requested change would delete surveillance requirements associated with the emergency diesel generator lockout features.

By letter dated June 24, 2004, you responded to the Nuclear Regulatory Commission staff's May 7, 2004, request for additional information (RAI). By letter dated August 2, 2004, the staff communicated further information needs in a second RAI. Subsequent to this letter, an error was identified in question number one. The second to last sentence of question one of the August 2, 2004, letter should read as follows:

The PSEG submittal does not indicate where the surveillance requirements currently in **TS 8.8.1.1.2.h.14** will be relocated to.

If you have any questions, please contact me at (301) 415-2481.

Sincerely,

/RA/
