SUBJECT: FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA) FINAL EXERCISE  
REPORT FOR THE CALVERT CLIFFS NUCLEAR POWER PLANT POST-  
PLUME PHASE EXERCISE

Dear Mr. Vanderheyden:

Dr. Robert Bores, State Liaison Officer, NRC Region I, received a letter dated July 1, 2004, from Darrell Hammonds, Regions Assistance Committee Chairperson, FEMA Region III, which forwarded the subject report. The exercise was conducted on April 13, 2004.

A copy of this report will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room). The package containing this report has been given the accession number of ML042010383. Please access this report for details concerning the exercises. Please note that there is a typographical error in the second paragraph on page 1 of the Executive Summary for the FEMA report. The post-plume phase exercise was conducted on October 22-24, 2003 and October 28-30, 2003 (not October 28-30, 2004).

No Deficiencies were identified during the exercise. There were two Areas Requiring Corrective Action (ARCA) and four planning issues identified as a result of this exercise. One ARCA was successfully resolved through demonstration. Please provide assistance to offsite officials as they address and resolve the identified items on a timely basis.

If you have any questions concerning this enclosure, please contact David Silk at (610) 337-5372.

Sincerely,

/RA/

Richard J. Conte, Chief  
Operational Safety Branch  
Division of Reactor Safety

Enclosure: FEMA letter to Dr. Bores
