Subject: RE: Exelon ESP Site Activities

Welcome back...

First, a minor administrative item. Could you get Mr. Kevin Borton removed from the correspondence distribution lists associated with ESP and other Part 52 activities, and if possible, replace him with me at the same address he was using?

Just in case, the address is: Exelon Generation, 200 Exelon Way, Kennett Square, PA 19348.

Second, with regard to seismic activities onsite, Exelon would like to know if there is any feedback on the scope of the geotechnical program activities described during our presentation on June 13. In particular, the planned program for drilling, sampling and testing. As we indicated, we believe only a limited scope of confirmatory testing and empirical correlations are sufficient to verify the continued acceptability of the site. However, any direct feedback from your reviewers would be appreciated.

Finally, as you can see, I now have a permanent Exelon email and phone. The pertinent contact information is provided below.

Thanks for your help.
