Subject: RE: Emergency Plan draft RAIs - Applicant questions

RAI No. 13.3-2

Is our statement "incorporated by reference" in the EP section 1.2 the cause for this difficulty/request/concern?

Would it help (or hinder more) if that statement were removed?

RAI No. 13.3-3

To which planning standard is this request related? I think that will help us understand how to respond.

RAI No. 13.3-5

Figure 3.1-2 is intended to show the requested relationships. This figure is the same as currently used to show this interrelationship for all Exelon plants (in the Exelon Nuclear Standardized Radiological Emergency Plan). We would prefer to have consistent information for all Exelon plants if possible.

a) Does the staff really need the requested additional detail?

If it is deemed necessary, b) do you have an example of a diagram that provides sufficient detail (perhaps from another station's EP)?

RAI No. 13.3-7

Is the Staff looking for anything specific here, or just general information?

Thanks,
Exelon Early Site Permit Project

Subject: Emergency Plan draft RAIs

Please find attached a package of preliminary questions, in the form of draft requests for additional information (RAIs) for the Clinton ESP review. These questions pertain the review of the EGC ESP Emergency Plan. Exelon may request a phone call to seek clarification on the questions before they are issued by letter. Please contact me to let me know if you wish to

arrange such a call or if you have other questions.

Sincerely,

Nanette Gilles
