docket # 40-6940
Cabot Corp. SMB-920

TAC LU0057

Your letter and preliminary data sent by e-mail on July 21, 2004 has been docketed so that your questions on the handling of the filtercake recycle request could be addressed. It appears that requesting only a one-month test run will not save significant time or fees as compared to requesting continuous release of filtercake for recycling. An environmental assessment of the recycle project is needed for either option. Please provide all the information needed to support your request so that staff can begin a detailed review.
