Chairman Diaz:

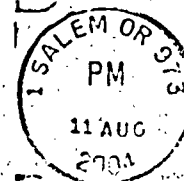

Although we have become familiar with the lobbyists who have been "embedded" in federal agencies to serve narrow private interests, rather than the public interest, the NRC has apparently going one better by abrogating its responsibilities to a lobby group. I refer of course to the Nuclear Energy Institute, the nuclear industry's chief lobby, being given the task of developing the teams that evaluate security at nuclear power plants. The Nuclear Energy Institute, a professional liar for the industry, has no credibility in this role. Their selection of the Wackenhut Company for this task is also a cruel joke, considering their record of deception and poor performance at Oak Ridge, TN.

Don't you folks feel at least the smallest tinge of guilt when you accept the public's money for this kind of betrayal???
